Statement of Yvette Doan, State Director, MENTOR Oregon

“For more than 15 years, MENTOR Oregon has strived to make a positive difference in the lives of the people we are privileged to support. We are proud of the difference our team has made on behalf of Oregonians with disabilities. We take our obligation to do all we can to ensure the health and well-being of those we serve extremely seriously, and are committed to continuous quality improvement in collaboration with our state and county partners. We received a letter this afternoon from the Senate Finance Committee and are currently reviewing it.”
